BICYCLE/PEDESTRIAN ADVISORY COMMITTEE (BPAC) FOR THE MIAMI URBANIZED AREA

AGENDA

WEDNESDAY, JANUARY 30, 2002 AT 7:00 P.M.

SOUTH MIAMI COMMISSION CHAMBERS 6130 SUNSET DR. SOUTH MIAMI, FLORIDA

- I. APPROVAL OF MINUTES:
 - { MEETING OF DECEMBER 20, 2001
- II. PRESENTATIONS:
 - A. MIAMI GARDENS DRIVE Craig Miller, Miller Consulting
 - B. PEDESTRIAN SAFETY PROGRAM UPDATE D. Henderson
- III. ACTION ITEMS:
 - A. VICE-CHAIR ELECTION D. Henderson
- IV. DISCUSSION ITEMS:
 - A. 2002 MEETING DATES D. Henderson
 - B. MIAMI RIVER GREENWAY FDEP RECREATIONAL TRAILS PROGRAM

 APPLICATION B. Bibeau, Miami River Commission
- V. INFORMATION ITEMS:
 - A. DECEMBER 2001 PROGRESS REPORT J. Manzella

FOR MORE INFORMATION ON THESE OR OTHER NON-MOTORIZED TRANSPORTATION ISSUIT CONTACT MIAMI-DADE'S BICYCLE/PEDESTRIAN COORDINATOR AT 305-375-1647.

BICYCLE/PEDESTRIAN ADVISORY COMMITTEE

MINUTES - MEETING OF WEDNESDAY, JANUARY 30, 2002

MEMBERS PRESENT

MEMBERS ABSENT

Brett Bibeau Brian Singer Larry Shahboz Bruce Henderson Ted Silver

Leo Succar Barry Burak Brian Hannigan Lillian Ros Martin

OTHERS PRESENT

David Henderson, Staff Jae Manzella, Staff Jeff Cohen, Public Works Ken Jeffries, FDOT Lew Sayre, FDOT Greg Callihan, Miller Consulting Paul Haydt, East Coast Grnwy Alliance

{ The meeting began at 7:05 p.m.

APPROVAL OF AGENDA DH: A member of the East Coast Greenway Alliance would like to speak to the group. BH: Would like to discuss the Pedestrian Task Force of the Safe Kids Coalition. LS: Would like to discuss conditions of the M-Path. JC: Would like to discuss the Grand Av. project. LS: Hearing no objections the Agenda was approved, as amended. APPROVAL OF MINUTES MIAMI GARDENS DR KJ: He is the Project Manger. This phase is to determine acceptable capacity improvem for the community and FDOT. Several public meetings will take place. GC: MG Dr. was recently approved from 4 to 6-lanes in the LRTP, (from Red Rd., west just past Bob O'Link; there will be intersection improvements further west until I-75. I residents are concerned with landscaping, not capacity or widening. Access Mg improvements, like median closures will also take place. One alternative includes bike Invo analysis has been made until traffic data is available. LS: The brochure doesn't include the bike lanes alternative. BH: Inquired if increased timing of signals and pedestrian actuators will be provide pedestrian crossings. GC: These would be included as the entire corridor signal timings are adjusted. And option is the creation of an alternative bike route though the neighborhood streets. JC: ROW acquisition would be imperative for a bike route; no local roads go through. GC: Pedestrian overpasses for I-75 and canals are a possibility. JC: The local roads don't connect to MG Dr. Maintinance of the route, which would be of the FDOT ROW would be a concern. GC: With the robust landscaping that the community wants, a Special Taxing District of need to be created. They also want noise walls, which they would have to pay for. The FL can put up visual screening (i.e., landscaping), but not privacy walls.	_ISSUE	DISCUSSION
LS: Would like to discuss conditions of the M-Path. JC: Would like to discuss the Grand Av. project. LS: Hearing no objections the Agenda was approved, as amended. APPROVAL OF MINUTES MIAMI GARDENS DR - KJ: He is the Project Manger. This phase is to determine acceptable capacity improvem for the community and FDOT. Several public meetings will take place. GC: MG Dr. was recently approved from 4 to 6-lanes in the LRTP, (from Red Rd., west just past Bob O'Link; there will be intersection improvements further west until 1-75. I residents are concerned with landscaping, not capacity or widening. Access Mg improvements, like median closures will also take place. One alternative includes bike Involved in the provide pedestrian crossings. GC: The brochure doesn't include the bike lanes alternative. BH: Inquired if increased timing of signals and pedestrian actuators will be provide pedestrian crossings. GC: These would be included as the entire corridor signal timings are adjusted. And option is the creation of an alternative bike route though the neighborhood streets. JC: ROW acquisition would be imperative for a bike route; no local roads go through. GC: Pedestrian overpasses for I-75 and canals are a possibility. JC: The local roads don't connect to MG Dr. Maintinance of the route, which would be of the FDOT ROW would be a concern. GC: With the robust landscaping that the community wants, a Special Taxing District of need to be created. They also want noise walls, which they would have to pay for. The FL can put up visual screening (i.e., landscaping), but not privacy walls.		DH: A member of the East Coast Greenway Alliance would like to speak to the group.
JC: Would like to discuss the Grand Av. project. LS: Hearing no objections the Agenda was approved, as amended. APPROVAL OF MINUTES BB: Motion to approve the 12/20/1 Minutes; seconded by BH; vote: unanimous. KJ: He is the Project Manger. This phase is to determine acceptable capacity improvem for the community and FDOT. Several public meetings will take place. GC: MG Dr. was recently approved from 4 to 6-lanes in the LRTP, (from Red Rd., west just past Bob O'Link; there will be intersection improvements further west until I-75. I residents are concerned with landscaping, not capacity or widening. Access Mg improvements, like median closures will also take place. One alternative includes bike lands has been made until traffic data is available. LS: The brochure doesn't include the bike lanes alternative. BH: Inquired if increased timing of signals and pedestrian actuators will be provide pedestrian crossings. GC: These would be included as the entire corridor signal timings are adjusted. And option is the creation of an alternative bike route though the neighborhood streets. JC: ROW acquisition would be imperative for a bike route; no local roads go through. GC: Pedestrian overpasses for I-75 and canals are a possibility. JC: The local roads don't connect to MG Dr. Maintinance of the route, which would be of the FDOT ROW would be a concern. GC: With the robust landscaping that the community wants, a Special Taxing District oned to be created. They also want noise walls, which they would have to pay for. The FL can put up visual screening (i.e., landscaping), but not privacy walls.	AGENDA	BH: Would like to discuss the Pedestrian Task Force of the Safe Kids Coalition.
LS: Hearing no objections the Agenda was approved, as amended. APPROVAL OF MINUTES BB: Motion to approve the 12/20/1 Minutes; seconded by BH; vote: unanimous. KJ: He is the Project Manger. This phase is to determine acceptable capacity improvem for the community and FDOT. Several public meetings will take place. GC: Pedestrian overpasses for I-75 and canals are a possibility. JC: The local roads don't connect to MG Dr. Maintinance of the route, which would be of the FDOT ROW would be a concern. GC: With the robust landscaping that the community wants, a Special Taxing District with need to be created. They also want noise walls, which they would have to pay for. The FD can put up visual screening (i.e., landscaping), but not privacy walls.		- BB: Motion to approve the 12/20/1 Minutes; seconded by BH; vote: unanimous.
KJ: In taking over DH's old job at the FDOT, he is a strong advocate for inclusion of blanes when possible. However, there aren't bike lanes on MG Dr. further out from the prolimits. JC: To gain bike lanes, the landscaping would be pushed to the back of the ROW and would be taken from that green strip, resulting in only 2 ½ of greenery.	MIAMI	GC: MG Dr. was recently approved from 4 to 6-lanes in the LRTP, (from Red Rd., west just past Bob O'Link; there will be intersection improvements further west until I-75. GC: With the robust landscaping that the community wants, a Special Taxing District v need to be created. They also want noise walls, which they would have to pay for. The FD can put up visual screening (i.e., landscaping), but not privacy walls. BH: Bamboo plants are effective without disruptive roots. KJ: In taking over DH's old job at the FDOT, he is a strong advocate for inclusion of t lanes when possible. However, there aren't bike lanes on MG Dr. further out from the prolimits. JC: To gain bike lanes, the landscaping would be pushed to the back of the ROW and w would be taken from that green strip, resulting in only 2 ½' of greenery. GC: This brochure was developed before he contacted DH who stated there is an unfun

bpac2001b:Jan 2k2 Minutes - 1 -

DH: Placing the landscape buffer between the road and the sidewalk would better sepedestrian safety.

BB: Motion to recommend the inclusion of bike lanes along Miami Gardens Dr.; seconde LS.

DH: Inquired as to the decision-making process to finalize the design.

KJ: Much of it will be community sentiment. They would prefer more landscaping that lanes. There will be more meetings, and more data collection is being done regarding f traffic projections. Increased traffic could be between 20-40%.

GC: There is a need for more ROW purchases at the intersections for the correct corner ra If the entire corridor is 6-laned, then privacy walls will need to be erected.

JM: The corner radii seem to allow 40 mph turns. Inquired if reducing these would be serve the community in terms of traffic calming and pedestrian crossings. Miami-Dade poor record of accommodating pedestrian crossings at major intersections. Refuge islesshould be incorporated into these designs, because pedestrians won't be able to cross du one cycle.

GC: This brochure depicts a preliminary design. During the design phase more attention vaddress movement details. The speed limit is 40 mph and shouldn't change.

KJ: When discussing details with several M-D Engineers, he has tried to advocate installation of pedestrian striping/signalization. Often their view is that it encourages pede use and thus, more accidents. This is one reason Miami-Dade has continued to be on the ten list of hazardous places for pedestrians/bicyclists.

LS: Perhaps textured crossings can be introduced.

KJ: If the community asks for it, it would be considered.

JC: Asphalt smears onto the pavers. Thermal plastic is more resilient.

LS: Perhaps both can be provided.

JC: There are higher maintenance costs with pavers.

GC: The county is reluctant to include more landscaping because of the maintenance.

LS: The BPAC should endorse the highest safety design possible. Motion to include installation of ...

JC: This project isn't set to begin for 20-years or so.

GC: Offered t be available for any more questions. Will come back after the f recommendation is being made; perhaps in April.

DH: There is something wrong if the FDOT is considering a non-standard installation privacy walls, and not taking serious consideration the proven safety of bike lanes.

GC: The privacy walls would have to be funded through the Special Taxing District.

JC: The FDOT should not use the absence of bike lanes in the area as criteria to determine they should be included in this project. This is a long distance.

KJ: Unfortunately, many Engineers are set in their ways. Bicycles are not a consideration they don't believe they belong on the roadways.

they don't believe they belong on the roadways.

bpac2001b:Jan 2k2 Minutes - 2 -

MISCEL-LANEOUS

• TS: Inquired regarding updates to the Krome and Grand Av.

JM: Minutes from the Krome Av. Project Advisory Group were just received. It reiters that Homestead is performing a traffic study, and that until the study is finalized, bike lan still being planned and the truck by-pass idea has been dropped.

DH: The Project Manager will return to discuss updates in either January of February. Bike lanes will be included north of Downtown Homestead to Okeechobee Rd., and south of Downtown to the end of Florida City. The 4 block Historic District will no have bike lanes. There has been increased controversy regarding the Florida City portic Land owners are already taking a loss with the change from 2 to 4 lanes. Another Common Meeting is being scheduled for Grand Av., but has not be set. Since the BPAC has decided bike lanes, the Project Manager wants to bring this up with the community groups that determine the issue previously. The meetings he attended didn't prove bike lanes to be so controver the groups were fairly divided on the issue. The facilitator had her own viewpoint and swe much of the discussion. He will continue to monitor the situation and make the BPA aware of the Community Meeting date. Once the design is underway, he will ask the Project Manager to meet with the BPAC.

- TS: Inquired as to the status of the Rickenbacker improvements.

 DH: Jeff Cohen is on vacation. There are various reasons why the project is stalled.
- TS: He noticed a sign was installed in the south warning automobile drivers turning right the bike lane continues straight.

DH: Because of complaints, the Public Works Dept. is planning to install signage at markings around Franjo Rd./SW 216 St.

• BB: American Airlines Arena has parking in the area adjacent to Biscayne Bay. This was planned to be greenspace when voters saw the proposal. The Miami Charter states t no surface parking shall be within 50' of Biscayne Bay. Also, a 20' wide walkway mus included for any new developments along Biscayne Bay and the Miami River, up to the 5 bridge.

LS: The Volvo Round-The-World Sailing Regatta is arriving in April. Perhaps this is the time to make sure it doesn't revert back to a parking lot.

BB: AA Arena and Miami Heat representatives should be brought before thi committee to explain their actions.

JR: Assistant Co. Mgr. B Johnson, a key member of that agreement, should attend.

BB: The County is also part owner.

TS: Inquired if the BPAC's request should be to discuss, or something stronger.

LS: The facts must be reviewed first.

TS: Requested this item to be on the January Agenda; as well as to request attendance/research from the County Attorney's office.

DH: The pedestrian bridge from Bayside to the arena was funded for a while, redirected to another project.

{ The meeting was adjourned at 8:35 p.m.
